Elcomsoft Password Recovery Bundle

Completely recover all kinds of passwords

A complete suite of ElcomSoft password recovery tools allows corporate and government customers to unprotect disks and systems and decrypt files and documents protected with popular applications. Based on in-house tests as well as feedback from ElcomSoft valuable customers, these password recovery tools are the fastest on the market, the easiest to use and the least expensive

Innovative Technologies

ElcomSoft has pioneered many software innovations that have made it easier to recover lost passwords from the operating system, Microsoft Office products, Adobe PDF files, ZIP and RAR archives, and a variety of other applications. The latest development revolutionizes the speed of password recovery without requiring expensive hardware.

Unprecedented Speed

Certain ElcomSoft password recovery applications employ a revolutionary, patented technology to accelerate password recovery when a compatible NVIDIA graphics card is present in addition to the CPU-only mode. Currently supporting all GeForce 8, 9, 100, 200, 400-series GPUs and AMD Radeon 5000-, 6000- and 7000-series GPUs, the GPU acceleration technology offloads parts of computational-heavy processing onto the fast and highly scalable processors featured in the NVIDIA's and AMD's latest graphic accelerators.

Fifty Times Faster than Competitors

The GPU acceleration is patented and unique to ElcomSoft password recovery products, making password recovery up to 50 times faster compared to traditional password recovery methods that only use the computer's main CPU.

Instant Recovery

EPRB is capable of instantly recovering passwords for a wide range of business and office applications, text processors, spreadsheets, database management programs, office suites, email clients, instant messengers, etc. Over a hundred different file formats and types of password encryption methods can be recovered instantly.

Competitive Pricing

EPRB is priced competitively as compared to ordering ElcomSoft products separately. Volume discounts are available. The Competitive Upgrade policy makes it possible to obtain Elcomsoft Password Recovery Bundle as an upgrade of a competitive password recovery suite (contact us for detailed information).

About ElcomSoft Co. Ltd.

ElcomSoft Co.Ltd. is a global industry-acknowledged expert in computer and mobile forensics providing tools, training, and consulting services to law enforcement, military, and intelligence agencies in criminal investigations. ElcomSoft has products that are affordable to individual consumers, and enterprise-grade products optimized for recovering passwords with clusters of network-connected workstations. The company's zero overhead algorithms ensure linear performance growth in even the largest networks.

GPU acceleration for faster processing

ElcomSoft pioneered many password recovery and information security technologies and algorithms and now patented technological innovations set industry standards. The company has five US patents granted, and several pending. Our trademarks and copyrights are duly registered and protected. ElcomSoft's patented innovations include *GPU acceleration* allowing to perform password recovery up to 20 times faster compared to Intel top of the line quad-core CPUs by using consumer- grade video cards with ATI or NVIDIA chips. *Thunder Tables*® , yet another patented technology, ensures guaranteed recovery of password-protected Microsoft Word and Microsoft Excel documents in just *seconds* instead of hours or days.

Our customers are our most valuable assets

ElcomSoft products are used by hundreds of thousands of happy customers, with many clients returning to purchase other products from us. We serve government and commercial organizations, including security departments, IT security audit departments and independent security professionals, as well as help desks of major corporations.

Our solutions are used by most of the Fortune 500 corporations, multiple branches of the military all over the world, governments, forensics and intelligence services in many countries including FBI, NSA/CSS, The Federal Security Service of the Russian Federation (FSB), as well as all major accounting companies. ElcomSoft supplies law enforcement and criminal investigation departments with password recovery tools, and helps legal authorities fight cyber-crime by providing consulting and sharing its technological expertise in information security.

Acknowledged by computer security experts

ElcomSoft products have become de-facto industry-standard, are studied in training sessions, and are covered in textbooks. Our products are part of the *Certified Ethical Hacker* initiative, a program that certifies the skills of security officers and consultants, auditors, site administrators, and professionals concerned about information security and the integrity of the network infrastructure.

ElcomSoft is an acknowledged expert in the password / system recovery and forensics market. The company's technological achievements and opinion leadership is quoted in many authoritative publications. For example: *"Microsoft Encyclopedia of Security"*, *"The art of deception"* (by Kevin Mitnick), *"IT Auditing: Using Controls to Protect Information Assets"* (by Chris Davis), *"Hacking exposed"* (by Stuart McClure).
